

Thank You For Your Support of Erika's Dream Room Makeover

What a wonderful and appreciative family!
Thank you Pam and Lucy for referring Erika to our program.

Erika loves her dream bedroom, and there is no doubt about that! But she and her family also love the fact that so many people went out of their way to bring hope to their family during a very challenging time. At the reveal, Erika gave every person a small gift, and the family read out loud their thank you note. Truly this is a family who has been through so much, and they sincerely appreciate the gift of kindness.

***Thank you to each of you who donated or spent time
"Creating Spaces That Matter" for Erika and her sisters, Felicia and Phoebe! Special call out
to Alina, who is the Rooms of Hope interior designer behind all three rooms!***

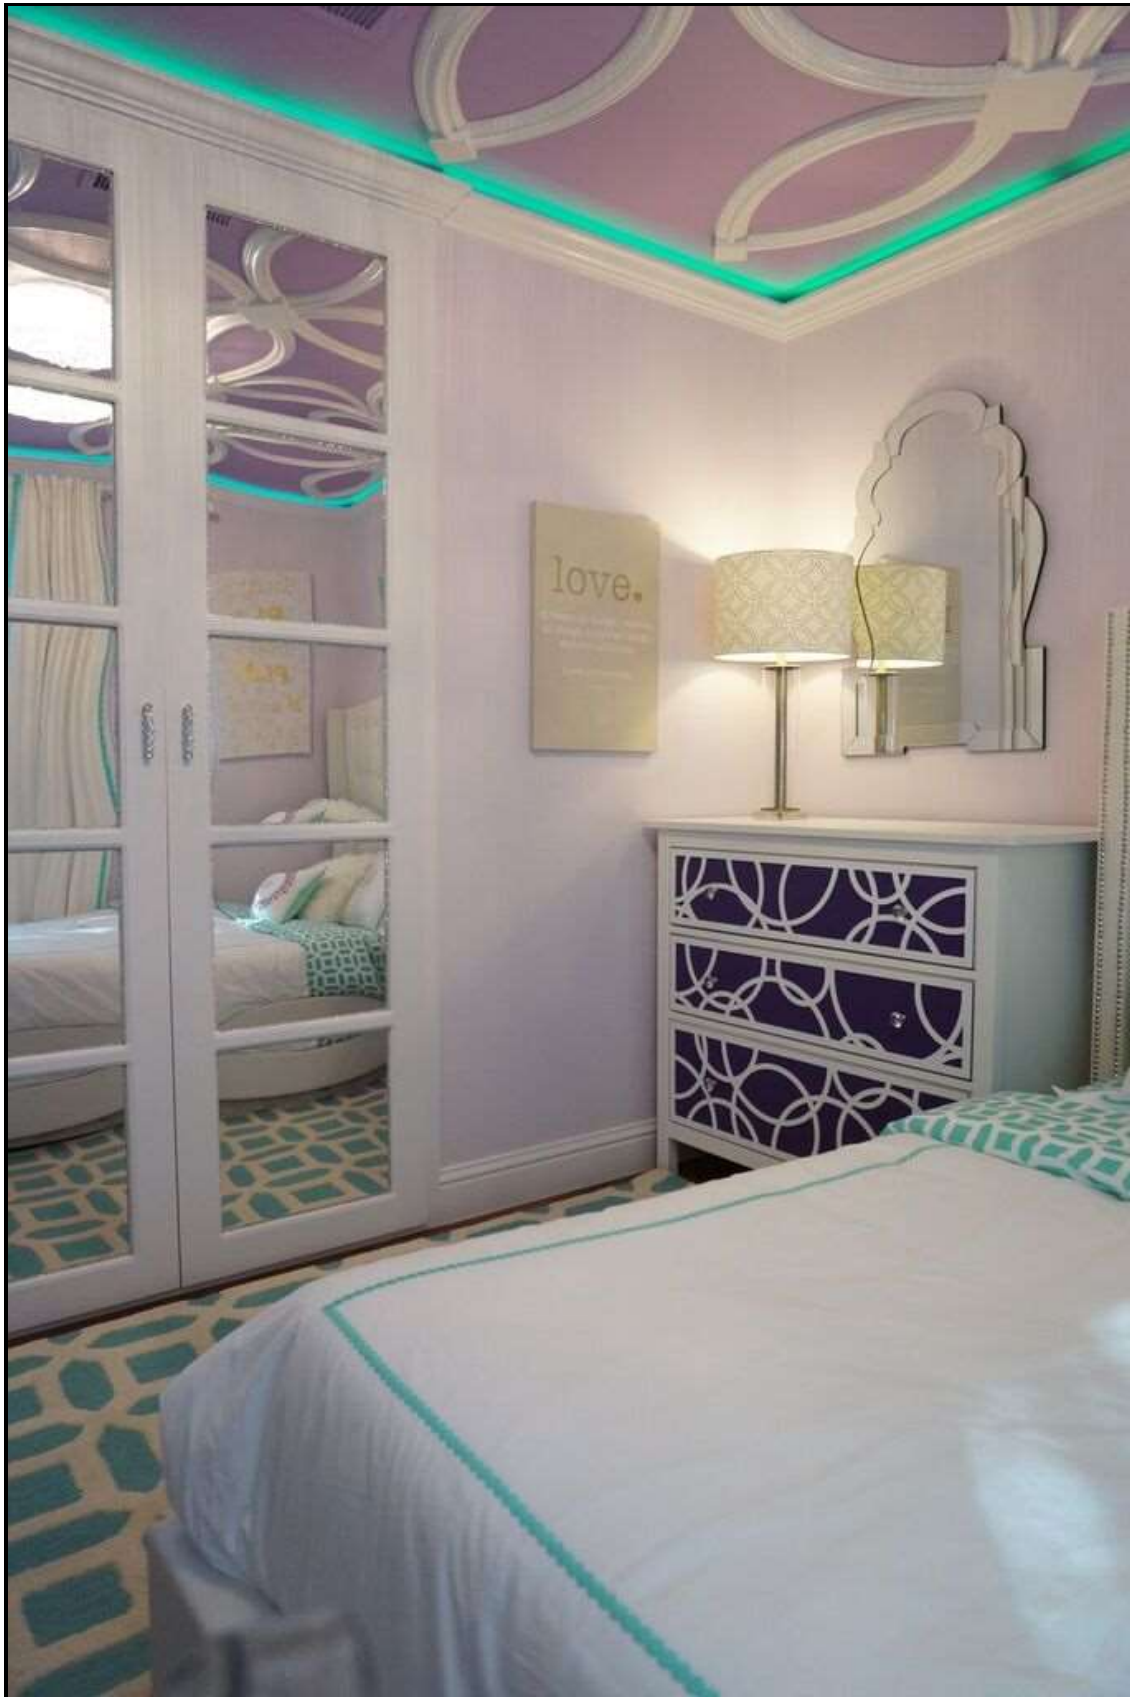

Erika wanted a room that was filled with patterns and included turquoise & lavender, but also had a lot of white and light too!
