Thank You For Your Support Of Ryder's Dream Room Makeover!

Ryder stole all of our hearts as he walked up the street with mom ready to see his new dream spaces. During this extremely stressful time in their lives, I thank each of you for allowing Ryder and his family to experience the hope and joy of having these dream spaces created by all of you; donors and volunteers alike! His bedroom and playroom will bring much-needed happiness for a long time to come! As the family fights for a solution to Ryder's extremely rare heart condition, please know that you made a difference just by being part of this makeover. I often say it is an honor and privilege to serve these families…and that is certainly the case here! And it takes a village to do what we do. I know we would all agree that this family deserves this gift and so much more…and we all pray for a medical solution that saves Ryder's life whether that be a heart transplant or some other answer to their prayers. Thank you for contributing to this beautiful family! Please hold them in your thoughts…

Ryder and his sister, Harley, are so adorable!

Ryder's Family Is So Appreciative & Loves Their New Dream Spaces…

From Mom…

Harley and Ryder's first night in their new room was like one we had never experienced.

Both children were so busy and happy exploring. Coloring on their new seat area and sitting at their small table and stacking blocks. Once I finally convinced them it was time for bed and that they could enjoy their room again in the morning they happily climbed into their bed with their Harley Quinn and motorcycle pillows.

And for the first time ever the two of them fell asleep on their own in their own beds!

The next morning the two of them couldn't wait to show off their new room and playroom to all of their cousins that came over. Thank you to everyone who helped to make their room so special, it is perfect.

It's Because Of Each Of You…
